Missouri Weekly Hay Summary 01/24/19

A pretty typical winter week in the state since the last report. A couple of storms came though making travel difficult in some areas for a few days. Many areas in the south still having a hard time dealing with mud as the ground does not want to stay frozen. Several farmers are lacking for on-farm hay inventory and trying to decide if they would just be better off to sell calves early and reduce use, in hopes of stretching what they have a bit longer. The supply of hay light to moderate. Hay prices are steady to firm. Hay demand is moderate to good. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).
